

## Priyansh Yadav

Local to Indore | +91 7000566395 | [Priyanshyadav1012@gmail.com](mailto:Priyanshyadav1012@gmail.com)

[linkedin.com/in/PriyanshYadav](https://linkedin.com/in/PriyanshYadav)

### SUMMARY

- Results-driven Full Stack Developer & Client Coordinator with 3+ years of experience building and managing scalable web applications using React.js, Next.js, Node.js, Express, Python, and Django.
- Skilled in both frontend and backend development, API integration, and Agile project coordination.
- Proven ability to bridge communication between technical teams and clients, ensuring timely delivery of secure, high-performing solutions.
- Adept at cloud deployment (AWS, Vercel), version control (Git), and software optimization.
- Passionate about delivering business impact through clean code and strong client relationships.

### SKILLS

- Front-End: React.js (Hooks, Redux, Context API), Next.js, TypeScript, Angular (Basics), React Router
- Languages: JavaScript (ES6+), HTML5, CSS3, SCSS/SASS
- UI Libraries: Material UI, Tailwind CSS, ShadCN, Next UI
- Back-End & Tools: Node.js, Express.js, Prisma, MongoDB Atlas, Vercel, Postman
- Testing & Version Control: Jest, Cypress, Git, GitHub , Docker , Docker Desktop , Docker Image , Docker Hub
- API Integration: RESTful APIs, JWT, OAuth, API Documentation
- Additional: Agile/Scrum, i18n, Responsive Web Design, Cross-Browser Compatibility

### EDUCATION

- Bachelor of Technology (B.Tech.) – Computer Science Engineering Mahakal Institute of Technology, Ujjain, MP Aug 2019 – May 2023
- Relevant Coursework: Data Structures & Algorithms, UI/UX Design, Web Technologies, Software Engineering, AI/ML

### WORK EXPERIENCE

#### Lance Soft Inc

##### US Recruiter Mar 2025 – Present

- Managed full-cycle recruitment for Technical, Engineering, and Operations roles including Technicians, Machine Operators, HVAC Engineers, and Assembly Line Supervisors.
- Conducted strategic sourcing using Boolean strings, LinkedIn Recruiter, Indeed, Dice, and internal ATS platforms to identify qualified candidates across the US.
- Built and maintained talent pipelines for high-demand and niche roles, resulting in a 40%+ conversion rate from shortlist to hire.
- Partnered with hiring managers and HR teams to understand technical requirements, compliance standards, and organizational culture.
- Screened, interviewed, and evaluated candidates for technical competency, soft skills, and cultural fit.
- Utilized Applicant Tracking Systems (ATS) such as Job Diva, Dice for candidate management, workflow optimization, and reporting.
- Crafted compelling job descriptions, outreach messages, and candidate summaries to enhance employer branding and engagement.
- Negotiated offers, managed onboarding coordination, and ensured a smooth candidate transition into client organizations.

#### Tech Venia

##### Frontend Developer Aug 2024 – Mar 2025

- Built and maintained scalable, responsive web interfaces using HTML5, CSS3/Tailwind CSS, JavaScript (ES6+), and TypeScript.
- Translated Figma / Adobe XD wireframes and UI designs into pixel-perfect, production-ready components with React & Next.js (SSR/SSG).

- Implemented Redux & Context API for predictable state management and improved application stability.
- Led code reviews and maintained a shared component library, mentoring junior developers on best practices.
- Ensured cross-browser compatibility and mobile-first performance, reducing page-load times by >25%.
- Authored technical documentation for UI components, architecture, and state-management patterns to standardize front-end workflows.

## **Freelance Work**

### **DevOps Developer Mar 2024 - Aug 2024**

- Designed and maintained CI/CD pipelines using GitHub Actions / Jenkins, enabling frequent, reliable code releases.
- Deployed and managed cloud infrastructure across AWS / Azure / GCP, optimizing networking, autoscaling, and storage for cost efficiency.
- Implemented monitoring and alerting via Prometheus / Grafana / CloudWatch, reducing incident response time by 30%.
- Defined branching strategies, rollback procedures, and disaster recovery plans, ensuring business continuity.
- Collaborated with development teams to integrate automated testing and security checks within build pipelines.

## **Time Space Lab Inc.**

### **Junior Software Developer Intern Jul 2023 – Mar 2024**

- Designed, developed, tested, and maintained scalable software solutions using MERN and Python stacks.
- Participated in all phases of the Software Development Life Cycle (SDLC) including requirements, design, coding, testing, and deployment.
- Collaborated with cross-functional teams to implement new features and optimize existing systems.
- Integrated front-end and back-end modules to ensure seamless data flow and functionality.
- Applied Object-Oriented Programming (OOP) principles for modular, reusable codebases.
- Conducted performance optimization, bug fixing, and root cause analysis for production issues.
- Used Git, GitHub, and Bitbucket for version control and collaboration.
- Worked under Agile / Scrum methodologies, attending sprint planning and daily stand-ups.
- Implemented CI/CD pipelines for faster delivery and automated deployments.

## **Albireo Tech System**

### **Client Coordinator Jan 2022 – Jul 2023**

- Acted as the primary point of contact between clients and internal development teams.
- Managed end-to-end project communication, ensuring clear understanding of client requirements and deliverables.
- Coordinated project timelines, milestones, and deliverables using Agile methodologies.
- Assisted clients with technical queries, onboarding, and documentation.
- Prepared status reports, meeting summaries, and progress dashboards for stakeholders.
- Collaborated with developers to translate client needs into technical specifications and sprint tasks.
- Ensured timely feedback cycles and client satisfaction across all active projects.
- Identified potential risks and proactively communicated solutions to maintain project momentum.
- Used CRM tools (Trello, or Jira) to track client interactions and project progress.
- Facilitated smooth handover and support transitions post-deployment.
- Assisted in recruitment and onboarding, contributing to improved project throughput and team cohesion.

## **Universal IT Solution**

### **Python Developer Intern Aug 2021 – Aug 2021**

- Developed and maintained Python-based backend systems, improving performance and scalability of web applications.
- Designed and implemented RESTful APIs using Flask / Django / FastAPI, ensuring secure and optimized data communication.
- Integrated third-party APIs and SDKs (e.g., payment gateways, email services, cloud storage).
- Automated repetitive tasks using Python scripts, increasing operational efficiency.
- Handled data processing, parsing, and transformation with Pandas, NumPy, and JSON/XML libraries.
- Wrote unit tests (PyTest / Unittest) to ensure high-quality, maintainable code.
- Deployed and monitored applications using Docker, AWS, and GitHub Actions CI/CD pipelines.

- Optimized SQL/NoSQL queries and implemented caching mechanisms for faster response times.

## **Universal IT Solution**

### **Web Developer Intern May 2020 – Jun 2020**

- Designed and developed responsive, SEO-friendly web interfaces using HTML5, CSS3, JavaScript, React.js, and Next.js.
- Built modular and maintainable UI components using React Hooks and TypeScript.
- Collaborated with designers and backend teams to translate business requirements into functional and scalable web solutions.
- Implemented state management using Redux / Context API for improved data flow.
- Integrated RESTful and GraphQL APIs for dynamic content rendering.
- Optimized website load times and improved Core Web Vitals scores using lazy loading, compression, and caching techniques.
- Ensured cross-browser compatibility and mobile-first responsiveness across devices.
- Managed version control using Git and GitHub, following best practices in branching and merging.
- Conducted code reviews, debugging, and QA testing before production deployment.

## **PROJECTS**

### **iPhone Website Apr 2024 – May 2024**

- Developed a 3D interactive product showcase using React, Three.js, and GSAP Animations, enabling real-time object manipulation and dynamic lighting.
- Utilized Tailwind CSS + Vite to achieve lightning-fast build times and responsive design across devices.
- Deployed on Vercel, achieving top Lighthouse / Vercel Speed Insights scores for performance and accessibility.

## **CERTIFICATIONS**

- Principles of UX/UI Design – Meta, Dec 2023 – Jan 2024
- Introduction to Front-End Development – Meta, Jul 2023 – Aug 2024
- Introduction to Back-End Development – Meta, Jul 2023 – Aug 2024
- Oracle Cloud Infrastructure Foundations Associate (2026)
- Oracle Cloud Infrastructure Foundations Certification (2026)
- Oracle Cloud Infrastructure AI Foundations (2026)
- Oracle Cloud Infrastructure Multi cloud Architect Professional (2026)
